彩虹蔬果臘口味煲仔飯

Rainbow Vegetable and Fruit Sauce Clay pot Rice

食材準備：

米、臘腸、胡蘿蔔、玉米、青豆、香菇、紫薯、南瓜、綠花椰菜、生抽、蠔油、鹽、食用油、黑胡椒粉。

製作步驟：

米洗淨浸泡半小時，紫薯、南瓜去皮切丁。將紫薯丁、南瓜丁與米混合，放入砂煲，加入適量水，用火山石煮。

臘腸切片，胡蘿蔔去皮切丁，香菇泡發後切丁。鍋中倒油，放入臘腸煸炒出油，加入胡蘿蔔丁、香菇丁、玉米、青豆翻炒，加少許鹽和黑胡椒粉調味。

米飯煮至七八成熟時，鋪上炒好的臘味蔬菜。西蘭花切成小朵，汆燙後擺放在砂煲邊緣。

繼續用小火燜煮至飯熟，關火後淋上生抽和蠔油混合的醬汁

Ingredients:

Rice, sausage, carrots, corn, green beans, mushrooms, purple sweet potatoes, pumpkin, broccoli, light soy sauce, oyster sauce, salt, cooking oil, black pepper

Steps:

Wash rice, soak for 30 mins. Dice purple sweet potato and pumpkin. Mix with rice in a clay pot, add water, and cook with volcanic stones.

Slice sausage, dice carrots and mushrooms. Stir-fry sausage in oil until oil releases, then add carrots, mushrooms, corn, and green beans. Season with salt and black pepper.

When rice is 70% cooked, add stir-fried vegetables. Blanch broccoli florets and place around the pot.

Simmer until rice is done. Turn off heat, pour soy and oyster sauce mixture on top.

臘腸處理

我們大致用什麼煲仔飯搭配？首選臘味，臘味中的臘腸，有肥有瘦，我選的是七成瘦、三成肥。太肥的臘腸不好，全是油。處理臘腸時，我習慣把兩頭稍剪一點，讓油脂流出，但別剪太薄，要保留一定尺寸。切的時候要用斜刀，這樣切出的形狀、效果不同。我這樣切成塊，是研究出來的，能讓油脂香味充分散發。不切成粒，是因為有人咬下去時油脂流走就沒意思，而整根吃才是保留傳統油脂風味的吃法。

For clay pot rice, we usually pair it with cured meats, especially sausages. I prefer sausages with a 70% lean to 30% fat ratio. To enhance flavor, I trim the ends slightly to let the fat drain, then cut them diagonally into chunks. This preserves their size and releases the fat's aroma, allowing the traditional flavor to shine when eaten whole.

排骨食材

以前成本較高，用的是急凍排骨，處理好之後和其他的差別不大，但其血水味還是存在。而新鮮食材的鮮味與質感，與急凍食材完全是兩個不同的概念。如果沒用新鮮食材，別人宣稱用的是新鮮食材，自己不標榜好壞，其實大家心裡都清楚，一吃就能分辨出來。

In the past, due to high costs, we used frozen ribs. Although they were processed to be similar to other ingredients, the bloody smell still lingered. Fresh ingredients offer a completely different experience in terms of flavor and texture compared to frozen ones. If fresh ingredients aren't used, but others claim to use them, it's not about advertising. Everyone can tell the difference once they taste it.

泰國椰香雞肉煲仔飯

主廚亦曾思考運用更健康、更具創新的食材來製作煲仔飯。以下為主廚借助人工智慧所構思的創意食譜，嘗試在傳統風味與現代健康理念之間取得平衡。

The chef has also contemplated using healthier and more innovative ingredients to create clay pot rice. Below are creative recipes envisioned by the chef with the assistance of artificial intelligence, aiming to strike a balance between traditional flavors and modern health-conscious principles.

泰國椰香雞肉煲仔飯

Thai Coconut Chicken Claypot Rice

食材準備：

米、雞腿肉、香茅、檸檬葉、椰漿、魚露、生抽、青檸、小米辣、洋蔥、大蒜、生薑、鹽、食用油、香菜。

製作步驟：

米浸泡後放入砂煲，加適量水和火山石煮。香茅、檸檬葉切碎，小米辣切圈，青檸榨汁，洋蔥、大蒜、生薑切末。

雞腿肉去骨切塊，用魚露、生抽、部分香茅碎、檸檬葉碎、蒜末、薑末醃製。

鍋中倒油，炒香洋蔥末，加入醃製好的雞肉翻炒至變色，倒入椰漿和適量水，放入剩餘香茅碎、檸檬葉碎，煮至湯汁濃稠。

米飯煮至表面無水時，倒入雞肉和湯汁，小火燉熟。出鍋前擠上青檸汁，撒上小米辣圈和香菜。

Ingredients:

Rice, chicken thighs, lemongrass, lemon leaves, coconut milk, fish sauce, light soy sauce, lime, chili pepper, onion, garlic, ginger, salt, cooking oil, coriander.

Steps:

After soaking the rice, put it into a clay pot, add appropriate amount of water and volcanic stones and cook. Chop lemongrass and lemon leaves, cut chili into rings, squeeze lime juice, and mince onion, garlic and ginger.

Debone the chicken thighs and cut them into pieces. Marinate them with fish sauce, light soy sauce, some chopped lemongrass, chopped lemon leaves, minced garlic, and minced ginger.

Pour oil into the pan, sauté chopped onion, add the marinated chicken and stir-fry until it changes color, pour in coconut milk and appropriate amount of water, add the remaining chopped lemongrass and lemon leaves, and cook until the soup is thick.

When the rice is cooked until there is no water on the surface, pour in the chicken and soup and simmer over low heat. Squeeze lime juice on top and sprinkle with chili rings and coriander before serving.

窩蛋牛肉飯

窩蛋牛肉飯

Clay pot rice with beef and egg

牛肉披在米飯上，與米飯一起做煲仔飯，但是米飯中間要挖一個洞，不然水分太多，要求邊緣的飯要鬆散些，不要壓實

Put the beef on the rice and cook it together with the rice. However, a hole should be dug in the middle of the rice, otherwise there will be too much water. The rice at the edge should be loose and not compacted.

像這些窩蛋牛肉，牛肉水分高，怎能控制飯又幹，身又不會膩，要靠師傅控制。時間。刻意放多久，如果多水分，多放一分多鐘也不怕。因為等它再收幹，你的飯可以再更旺。牛肉會否多放生粉讓水分釋出？不需要了，我們去遷就。

The beef in dishes like beef-filled buns has a high water content. How can we ensure that the rice is dry without becoming greasy? This relies on the chef's control over the cooking time. You can leave it in for as long as needed. If it's too moist, an extra minute or so won't hurt. Once the moisture dries up, the rice will be more flavorful. Should more cornstarch be added to the beef to release moisture? No, that's not necessary. We'll adjust accordingly.

星空漸層紫薯煲仔飯

主廚亦曾思考運用更健康、更具創新的食材來製作煲仔飯。以下為主廚借助人工智慧所構思的創意食譜，嘗試在傳統風味與現代健康理念之間取得平衡。

The chef has also contemplated using healthier and more innovative ingredients to create clay pot rice. Below are creative recipes envisioned by the chef with the assistance of artificial intelligence, aiming to strike a balance between traditional flavors and modern health-conscious principles.

星空漸層紫薯煲仔飯

Starry Sky Gradient Purple Potato Claypot Rice

食材準備：

米、紫薯、蝶豆花、牛奶、冰糖、椰蓉、葡萄乾

製作步驟：

米洗淨浸泡，紫薯蒸熟後壓成泥狀。蝶豆花用熱水泡出顏色，加入牛奶和冰糖煮至冰糖融化，製成藍色牛奶液。

將部分米放入砂煲，加入紫薯泥和適量水，用火山石煮。待米飯煮至半熟時，在砂煲一側倒入藍色牛奶液，繼續煮至飯熟。

出鍋後撒上椰蓉和葡萄乾，形成星空漸層的效果

Ingredients:

Rice, purple sweet potato, butterfly pea flower, milk, rock sugar, coconut flakes, and raisins

Steps:

Wash and soak the rice, steam the purple sweet potato and mash it into a paste. Soak the butterfly pea flowers in hot water to bring out their color, add milk and rock sugar and cook until the rock sugar melts to make blue milk liquid.

Put some rice into a clay pot, add purple sweet potato puree and appropriate amount of water, and cook with volcanic stones. When the rice is half cooked, pour blue milk liquid on one side of the clay pot and continue cooking until the rice is cooked.

After serving, sprinkle with shredded coconut and raisins to create a starry sky gradient effect

實際操作記錄

記錄煲仔飯製作過程中的實際操作技巧與心得。

米粒風乾

米粒需先浸泡七分七分鐘，隨後瀝乾水分，靜置於室溫下自然風乾，使米粒表面微微乾爽，方能進入下一步驟。

Soak the rice for seven minutes, then drain thoroughly and let it air-dry at room temperature until the grains are slightly dry to the touch before proceeding to the next step.

觀察火力

師傅會轉動瓦煲來觀察火力變化，當看見白煙冒出時，便能判斷火候是否得當。透過這種方式精準掌控火力，才能確保米飯煮熟後香氣四溢，並在煲底形成金黃酥脆的飯焦。

The chef rotates the clay pot to observe the heat distribution. When white smoke begins to rise, it indicates the intensity of the flame. By monitoring the smoke and adjusting accordingly, the chef ensures the rice cooks evenly with a fragrant aroma and develops a golden, crispy crust at the bottom.

漏勺瀝乾

將浸泡後的米粒倒入漏勺中，充分瀝乾多餘水分。接著將米放入鍋中短暫煮製，待米粒半熟後，隨即轉移至瓦煲中，置於火爐上繼續烹煮，使米飯在瓦煲內充分吸收熱力，形成鍋巴。

Pour the soaked rice into a colander and drain thoroughly to remove excess water. Then briefly parboil the rice in a pot until partially cooked, before promptly transferring it into a clay pot set over a stove. Continue cooking in the clay pot to allow the rice to fully absorb the heat and form a crispy golden crust at the bottom.

火山石傳熱

此處設有熱力管與火山石。火山石能吸收熱力管傳遞的熱能，並將熱量均勻向上傳導，使整體溫度分布一致，確保瓦煲受熱均勻，米飯烹煮效果更佳。

This section is equipped with heating pipes and volcanic stones. The volcanic stones absorb the heat from the pipes and distribute it evenly upwards, creating a uniform temperature throughout the cooking chamber, which ensures consistent heating of the clay pot and optimal rice cooking results.

白飯處理

若米飯煮製時間過長，我們會將其改製成白飯，用於炒飯等料理。因為米飯一旦過了「氣」，食材便無法再吸收飯香，繼續煲製便失去了意義。

If the rice has been cooked for too long, we will set it aside as plain steamed rice, suitable for making fried rice and other dishes. Once the rice has lost its "qi" (vital essence), the ingredients can no longer absorb its aroma, making further clay pot cooking unnecessary.

臘腸飯成品

看這煲臘腸飯做得恰到好處——底部結著一層金黃酥脆的鍋巴，米飯乾爽分明、粒粒晶瑩剔透，色澤潔白通透，賣相極佳，真是一煲好靚仔的煲仔飯。

Take a look at this clay pot rice with Chinese sausage—it is cooked to perfection. A layer of golden, crispy rice crust forms at the bottom, while the rice grains are dry and well-separated, glistening with a translucent, pearly white sheen. A truly beautiful and appetizing dish.
